ARE YOU GOING TO ORGANIZE AN INTERNATIONAL EXHIBITION?

You make the policies and branding, Salon.Photo Platform will do the rest, automatically and errorlessly!
Website, Gathering of Photos, Judging Software & etc.

Salon.Photo Platform and *Judgment® Software* are made by Focus Team Software Group, it include a website for announcing the rules, news, status list and result and sing up entrants. Entrants can upload their art works(single or collection), edit their profile and entries, fill out the titles and pay their fee. The administrator also has access too several reports such as full information about entrants, entries, payments, statistic of country etc. All entries get uniquely renamed by the software. The entry later will be downloaded using FTP and will be import to Judgment Software for judging. Later on, all results will be exported from the software and will be imported to the website. As all the process is automated there will be no mistake.

Judgment® Software has all the requirements for judging such as: high speed, network judging, several stages of judging based on acceptance/rejection or scores, selection based on percentage or numbers, ability to return to the previews stage and selecting between special groups of works etc. Every jury member can select works by his keyboard. All the requested information for FIAP/PSA catalogs such as list of acceptances and table of statistics can be exported from the software.

Some of international salons that used this platform are as below:
